

## Login trouble: Internet Explorer Compatibility View Settings

If you are using Internet Explorer 11, you might have problems logging in since we are not completely compatible with Internet Explorer. There is a work around that you can try.

To adjust your browser settings:

Choose Tools / Compatibility view settings from the menu bar. If you do not see the menu bar press the ALT key on your keyboard.

In the Compatibility View Settings dialogue make sure that ihl.com is in the Add this website field.

Click Add, and then close.

Try logging in again.
